Background Banner

Banner should communicate exactly what you do

Andre Kehl · 1st

Associate professor, Shchkhznal and university of economics

Ukarra · 145 connections · Contact info

Luke Tew

Head of Content | Maverrik | Business Growth and Social Media Marketing

Plymouth, England, United Kingdom · 500+ connections ·

Headline

Put your main skills into the headline.

- Software Engineer
- Developer

✗

- Senior Full Stack Software Engineer (ReactJS/ExpressJS)
- Backend Developer (Java/Scala)

✓

About

Write something about you that will make the recruiter instantly want to DM you

bad

ReactJS developer. Skills: JS, React, HTML, CSS

good

Coding on ReactJS and dreaming on ReactJS. Help companies to build complex web applications serving 1,000,000+ users with React and modern technologies

Experience

In the "Experience" section write about all your work experience. But make it short

---

Senior Software Engineer
Google· Full-time
Oct 2018 – Aug 2019 · 11 mos

Worked as a software engineer. Developed big applications. Code review.

✗

Senior Software Engineer
Google· Full-time
Oct 2018 – Aug 2019 · 11 mos

● Built application with 200K+ active users from scratch
● Developing an internal CRM system for a Google internal project
● Managed and educated team of 10 Software Engineers

✓

Skills

In the "Skills" section add all technical skills you know with different variations

For example, if you know CSS, add skills: CSS, CSS3, CSS4

If you know JavaScript, add skills: JavaScript, JS (ES6/ES7/ES8)

This is the place where you should put as many keywords as possible

an advice

don't write technologies you don't know. Interviewers can easily test your knowledge during the interview.
